

I would like to take the time to comment on the issue involving LPFM possibly replacing conventional FM translators. The radio station my family and I listen to comes to us via an FM translator. The station we listen to is very important to us and is very beneficial to our community. K-love radio is such a nice alternative to commercial radio that losing it to an LPFM would be very disappointing. We depend on this station for positive messages and music that can and does help us make it thru our days. Please do not allow these LPFM's to enter the market if it will replace our current radio station. Thank you. Rick Manley and family.
